09191 - CORD, COIL, JEWEL, MAGSNAP, MAGGROUND, ONYX, 12'

Quantity in stock:

Sold Per:

Stock Location:

Estimated Shipping Weight: 0.15 lb

This item is built-to-order. A minimum order of 15 is required if there is no stock currently on hand.

Features

Additional Information

- **Magnetic Connection Between Wrist Band and Coil Cord (U.S. Patent 5,004,425)**
Superior electrical connection to eliminate intermittent failures of traditional snaps; extends the lifespan of the wrist strap. Maintains 1-5 pound release to prevent accidental disconnects and increased safety.
- **More Reliable Design**
Longer lasting, no moving parts.
- **Includes 4mm Steel Capped Parking Station Adapter**
Allows users to use MagSnap® interconnect system with constant monitors using 4mm snap studs for parking station.
- **Adapter Available to Connect Magnetic Ground End to Standard Banana Jack**
Use [Desco item number 09193](#) to provide connection to standard banana jack.
- **True 12 Foot (18 Inches Of Coils) Coil Cord**
Allows operator additional coil cord length to move freely within work area.
- **Superior Strain Relief Tests In Excess Of 1,000,000 Cycles*; Over 62 Times The Minimum Requirement Per ESD S1.1 With Limited Lifetime Warranty****
Eliminates intermittent failures that occur with less durable cords extending the lifespan of the wrist strap.
- **Low Profile Snap Design**
Keeps cord from being disconnected or getting in the way of operator's work area.
- **UL Listed With One Meg Ohm Series Resistor**
To protect operator from accidental contact with equipment line voltage; meets UL & OSHA requirement to ensure operator safety.
- **Date Coded**
Provided so that the lifespan of the product may tracked and to ensure quality control.
- **To Be Used with MagSnap® Wristbands**

- **Made in the United States of America**
This item is made and stocked in [Chino, CA.](#)

Estimated Shipping Weight: 0.16 Pounds

*Superior strain relief. Greatly exceeds ESD S1.1 [Bending Life Test](#).

**Lifetime warranty on coil cord strain relief. [See details](#)

Jewel® Coil Cords meet and exceed the Wrist Band and Wrist Cord requirements of ANSI/ESD S20.20.

Per ESD Handbook TR20.20 paragraph 5.3.2.2.2 Wrist Strap Ground Cord, "At first glance, the ground cord appears to be a relatively simple assembly. However, the design requirements are considerable, given the wide
