82

Robust and attractive.

Series 82

Robust and attractive.

With Series 82, EAO offers the optimal pushbutton for vandal-resistant, stylish HMI controls used in harsh industrial environments, public areas and building management.

EAO, the expert and partner for Human Machine Interfaces (HMIs), offers pushbuttons that are both resistant to vandalism and visually attractive in the form of the Series 82, for use in harsh environments.

With their robust stainless steel, brass or anodised aluminium housings, these innovatively designed switches are protected to IK10 impact resistance and IP67 sealing requirements, which makes them ideal for use in exposed public buildings and areas.

The switches are available with momentary or maintained action, and with or without LED illumination, with a choice in turn of central dot or ring illumination. The ring illumination is particularly striking and attractive.

The switching elements are offered either with silver alloyed or in addition gold-plated contacts for reliably switching low voltages and currents.

Typical applications

- Exposed public areas:
e.g. ticketing and vending machines
- Industrial:
Machinery and factory equipment
- Lifting and moving:
Elevators and people movers
- Building management:
Access control and security systems
- Audio and video equipment
- Medical equipment

Laser Markings

Using a CO² laser it is possible to engrave practically any symbol or text in any language onto the stainless steel versions of the Series 82 products.

Laser markings are highly resilient, do not fade and last for an extraordinarily long time – ideal conditions for these vandal resistant indicators, pushbuttons and illuminated pushbuttons.

Standard symbols

Various standard symbols are available. Here are a number of examples:

On/Off	Standby	Info
		
Light	Bell	Door open
		

Advantages.

- Vandal-resistant: Impact resistant to IK10, front protection up to IP67
- Gold-plated silver contacts available for low voltages and currents
- Optional illumination and laser markings
- Excellent tactile feedback
- Long service life: > 1 million cycles of operation

Materials

- Stainless steel SUS 304
- Stainless steel chrome coloured
- Brass gold coloured
- Aluminium (natural anodised), other colours on request

Mechanical characteristics

- Mechanical lifetime:
> 1 million cycles of operation
- Actuation force: 4 N to 7 N
- Terminals: Soldering/plug-in terminals
2.8 x 0.5 mm or screw terminal

Minimum operating data

- Switching element with silver contact:
24 VAC/DC 50 mA
- Switching element with gold-plated silver contact: 5VDC/10mA

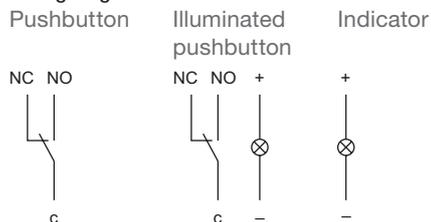

Switching system

- Switching element:
Snap-action switching element
- Contact arrangement:
NO/NC contact (changeover)
- Switching action:
Momentary or maintained
- Contact materials:
Silver alloy or gold-plated silver alloy

Switching element

- Contact resistance:
 $\leq 50 \text{ m}\Omega$, according to IEC 60512-2
- Isolation resistance:
 $> 1000 \text{ M}\Omega$, according to IEC 60512-3
- Dielectric strength:
1500 VAC, according to IEC 60947-5

Wiring diagram

Properties and illuminations.

Electrical characteristics

- Rated insulation voltage 250 VAC
- Conventional thermal current:
I_{TH} 5A, according to CB
- Electrical life: > 50 000 cycles (full load)
- Switching capacity: AC-15 (cosφ0.3) and DC-13 (according to IEC 60947-5-1)

	24V	110V	220V
AC-15	1.0A	1.0A	0.5A
DC-13	0.7A	0.2A	0.1A

Ambient conditions

- Temperature
 - Storage temperature –40 °C to +80 °C
 - Operating temperature –30 °C to +70 °C
- Operating humidity: 45 % to 85 % RH (no condensation)
- Front protection: IP65, IP67, according IEC 60529
- Impact resistance: IK10, according to IEC 62262
- Approvals: CE, CB, UL, C UL, CCC

LED illumination

- Red
- Green
- Yellow
- Blue
- White

LED, series resistor and polarity protection are built in.

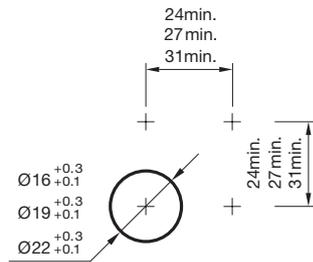

Voltage	Tolerance	Current	Consumption
6VAC/DC	± 10 %	15 mA	0.10 W
12VAC/DC	± 10 %	14 mA	0.17 W
24VAC/DC	± 10 %	10 mA	0.24 W
110VAC	± 10 %	2 mA	0.22 W
230VAC	± 10 %	1.3 mA	0.29 W

Reliable assembly. Short delivery times.

Thanks to our international production sites and our global delivery and support centres, we offer you efficient, sustainable logistics and can optimise your supply chain.

- Qualified vendors worldwide
- Consistent multi-location processes
- Integrated quality measures throughout the supply chain

With four value-creating partners in Europe, Asia and North America, as well as other strong partnerships around the world, we are able to offer the following:

To us, speedy assembly, short delivery times and secure processing are all part of good customer service.
