

This technical drawing shows a cross-section of a mechanical assembly. On the left, a motor or actuator is connected to a shaft. This shaft passes through a central housing and is connected to a pulley. The pulley is part of a gear mechanism that includes a large gear and a smaller gear. The assembly is shown in a cross-section view, with dashed lines indicating the internal components and the path of the shaft. The drawing is a black and white line drawing with a central horizontal axis.
