| Type                | FW20                                                                                                                                                                                                                         |
| Color               | Red (RD)                                                                                                                                                                                                                     |
| Features & Benefits | <ul style="list-style-type: none"><li>• Rugged, tough material (78 Shore D Hardness) for tighter seal.</li><li>• Protects against water and dust.</li><li>• For metric or NPT threads.</li><li>• Resistant to oil.</li></ul> |
| Quantity Per        | pack                                                                                                                                                                                                                         |
| Product Description | Vulcanized Fiber Sealing Washer used with metallic threaded fittings. Suitable for Metric or NPT threaded fittings.                                                                                                          |
| Short Description   | HelaGuard M20 Fiber Sealing Washer, 20mm Dia, Vulcanized Fiber, Red, 10/pkg                                                                                                                                                  |

|                                          |                                   |
|------------------------------------------|-----------------------------------|
| <b>Global Part Name</b>                  | FW20-VF-RD                        |
| <b>Variant</b>                           | Seal Washer                       |
| <b>Outside Diameter OD(Imperial)</b>     | 1.02                              |
| <b>Outside Diameter OD(metric)</b>       | 26.0                              |
| <b>Nominal Diameter (Imperial)</b>       | 0.81                              |
| <b>Nominal Diameter (Metric)</b>         | 20                                |
| <b>Wall Thickness WT (Metric)</b>        | 1.6                               |
| <b>Mounting Hole Diameter D (Metric)</b> | 20.0 mm                           |
| <b>Material</b>                          | Vulcanised Fibre (VF)             |
| <b>Material Shortcut</b>                 | VF                                |
| <b>Operating Temperature (Metric)</b>    | -58°F to +275°F (-50°C to +135°C) |
| <b>Package Quantity(Imperial)</b>        | 10                                |
| <b>Package Quantity (Metric)</b>         | 10                                |
