Common mode filters Ultra high-speed differential signal line (HDMI, DVI, USB3.0) MCZ-DH series

MCZ2010DH type

FEATURES

- O Compact multilayer common mode filter.
- Widened frequency range for differential mode transmission up to 6.0GHz while ensuring common mode impedance.
 Suppresses common mode noise without influencing the high-speed differential transmission line signal.
- \bigcirc Characteristics impedance for differential mode is 100 $\!\Omega$
- Optimal for high-speed differential transmission lines, especially HDMI sink devices.
- \bigcirc Operating temperature range: -40 to +85°C

APPLICATION

- O High-speed interfaces for electronic equipment (HDMI, DVI, USB3.0)
- TVs, DVCs, mobile phones, PCs, DSCs, portable game machines, etc.

O Application guides: Smart phones/tablets

REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this products.

 The storage period is less than 12 months. Be sure to follow the storage conditions (temperature: 5 to 40°C, humidity: 10 to 75% RH or less). If the storage period elapses, the soldering of the terminal electrodes may deteriorate. 					
\bigcirc Do not use or store in locations where there are conditions such as	gas corrosion (salt, acid, alkali, etc.).				
Before soldering, be sure to preheat components. The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C.					
Soldering corrections after mounting should be within the range of the conditions determined in the specifications. If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.					
When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.					
Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set thermal design.					
 Carefully lay out the coil for the circuit board design of the non-magnetic shield type. A malfunction may occur due to magnetic interference. 					
\bigcirc Use a wrist band to discharge static electricity in your body through	the grounding wire.				
O Do not expose the products to magnets or magnetic fields.					
\bigcirc Do not use for a purpose outside of the contents regulated in the de	livery specifications.				
 The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or quality require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society, person or property. If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions set forth in the each catalog, please contact us. 					
 (1) Aerospace/aviation equipment (2) Transportation equipment (cars, electric trains, ships, etc.) (3) Medical equipment (4) Power-generation control equipment (5) Atomic energy-related equipment (6) Seabed equipment (7) Transportation control equipment 	 (8) Public information-processing equipment (9) Military equipment (10) Electric heating apparatus, burning equipment (11) Disaster prevention/crime prevention equipment (12) Safety equipment (13) Other applications that are not considered general-purpose applications s, you are kindly requested to take into consideration securing pro- 				
tection circuit/device or providing backup circuits in your equipment.					

A Please be sure to request delivery specifications that provide further details on the features and specifications of the products for proper and safe use. Please note that the contents may change without any prior notice due to reasons such as upgrading. (4/4)
