Switch - Reversible 4 Position IEEE Autoswitch

MODEL NUMBER: **B170-004-R**

Description
Very versatile. Use with any printer including a high speed IEEE1284 printer. Automatic switch can be used to share a printer between up to 4 PCs. Will automatically manage print jobs in a transparent manner. Switch can also be used to connect a PC to up to 4 printers. Target printer is selected via software (supplied) or manually. LEDs provide switch status at a glance. This compact unit does not require AC power allowing it to be located virtually anywhere. Connect switch to PC using an IEEE Switchbox cable (P710-010). Printer connects to switch using an IEEE printer cable (P606-006). Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features
- IEEE1284 Approved.
- Designed for use with all printers including IEEE high speed printers.
- Reversible: Connect 1 PC to up to 4 Printers or up to 4 PCs to 1 Printer.
- No AC required.
- Has both Automatic and Manual mode.
- Status LEDs quickly identify the mode as well as the port in use.
- Compact design enable switch to be located almost anywhere.
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Highlights
- Automatic, hands-free switching
- No external power source required
- Reversible design allows multiple computers to share 1 printer or 1 computer to use multiple printers
- Retail packaging

System Requirements
- Computer with a parallel port
- Parallel printer (either IEEE or non-IEEE)
- CD drive in the computer to load the driver
- One straight through IEEE switch cable per computer (model # P710-010)
- One parallel IEEE printer cable per printer (P606-006 or P606-010)

Package Includes
- B170-004-R Reversible 4 Position IEEE Autoswitch
- CD with Drivers
- Manual
