Mini DisplayPort 1.2 to DVI Adapter Cable, Active, M/M, 6 ft.

MODEL NUMBER: **P586-006-DVI-V2**

Converts a Mini DisplayPort v1.2 video signal for display on a DVI monitor, projector or television.

Description

The P586-006-DVI-V2 Mini DisplayPort 1.2 to DVI Active Adapter Cable connects a Mini DisplayPort (or Thunderbolt) computer to the DVI port on a monitor, projector or television. With a Mini DisplayPort male connector on one end and a DVI-D male connector on the other, this cable requires no separate adapter. It lets you use your existing DVI display instead of buying a new Mini DisplayPort monitor.

Ideal for displaying video on a large monitor or digital sign, this cable supports high-definition video resolutions up to 1920 x 1080 (1080p). It converts both Single-Mode and Dual-Mode (DP++) Mini DisplayPort output, and is perfect for use with graphics cards, such as AMD Eyefinity, that do not output DP++ signals.

First-class foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI interference. Gold-plated connectors and contacts ensure excellent conductivity. Integral strain relief ensures the cable and molded connectors last a long time.
