- Male-to-male is not a standard USB cable configuration. It's used only in rare instances where a peripheral or patch bay employs a female connector instead of a USB-B port.
- Not for use with Tripp Lite's U325-000-KP-BK, U325-000-KPA-BK or U325-001-KPA-BK. The U325-003 and U325-006 USB A Male/Male cables are designed for use with those products.
- This cable will not connect two PCs. File-sharing between computers requires special software-driven cables, such as Tripp Lite's U234-006-MP-R.

USB 3.0 SuperSpeed A/A Cable (M/M), Black, 6 ft.

MODEL NUMBER: U320-006-BK

Highlights

- Supports data transfer rates up to 5 Gbps
- Nickel-plated connectors with gold-plated contacts
- Data flows both directions simultaneously
- Twisted 28/24 AWG data/power lines
- Backward compatible with earlier USB generations

System Requirements

- Computer with USB-A female port
- Peripheral or patch bay with USB-A female port

Package Includes

- U320-006-BK USB 3.0 SuperSpeed A/A Cable (M/M)

Connects peripherals and patch bays with female USB-A ports to your computer, laptop or other compatible USB 3.0 device, such as a Chromebook™ or Microsoft® Surface®.

Description

The U320-006-BK USB 3.0 SuperSpeed A/A Cable (M/M) connects your computer, laptop or other compatible USB 3.0 device, such as Chromebooks and Surface tablets, to a USB-A peripheral or patch bay with a female port. This six-foot cable supports USB 3.0 data transfer rates up to 5 Gbps, which is ten times faster than USB 2.0. Its bi-directional data interface allows data to flow both directions simultaneously, increasing theoretical bandwidth by ten times for efficient power and little wait-time.

Backward compatible with earlier USB generations, the U320-006-BK features premium foil and braid shielding to deliver reliable, error-free signal quality and protection from EMI/RFI interference. Molded nickel-plated connectors with gold-plated copper contacts ensure excellent conductivity. Integral strain relief ensures the cable and connectors last a long time. A rugged PVC jacket protects twisted 28 AWG data lines and 24 AWG power lines.

Features

Connects Your USB Type-A Peripherals to Your Computer

- Recommended for peripherals, patch bays, computers, laptops and other compatible USB 3.0 devices with female connectors
- Supports data transfer rates up to 5 Gbps

- Bi-directional data interface allows data to flow both directions
- Backward compatible with earlier USB generations

First-Rate Construction for Superior Signal Transfer

- Premium foil and braid shielding for EMI/RFI noise protection
- Molded nickel-plated connectors for optimal signal quality
- Integral strain relief for long life
- Twisted 28/24 AWG data/power lines
- Flexible PVC jacket easy to install in tight spaces
