

# **S01 - VERSASENSE PASSIVE INFRARED PRESENCE SENSOR**

### PRODUCT DESCRIPTION

The VersaSense Passive Infrared (PIR) Presence Sensor (S01) detects the motion of warm objects such as humans and animals within its range and field of view.

#### **VERSASENSE SENSORS**

VersaSense Sensors are self-identifying sensors and actuators that connect to VersaSense Wireless Devices to provide plugand-play sensing and control.

The VersaSense software automatically installs and configures all drivers, eliminating the cost and complexity of deploying an IoT network.

**Note:** only one peripheral of this type may be connected to a VersaSense Wireless Device.

# **APPLICATIONS**

The passive infrared sensor is typically used to detect the presence or absence of humans and animals within discrete rooms or zones. Applications include:

- ★ Burglar alarm systems
- ★ Smart lighting systems
- ★ Safety control systems
- ★ Animal enclosure monitoring

#### **CORE COMPONENTS**

The **S01** is based on the EKMB1201112 from Panasonic<sup>®</sup>, for more information please visit:

Panasonic\_EKMB1201112.pdf

### **S01 CHARACTERISTICS**

Characteristic	Value	Unit
Max range	5	m
Avg current	170	μA
Min/Max period between updates	10 / 86400	s

**Note:** avg current values represent the current that this sensor draws from a VersaSense Wireless Device. This value excludes message transmission.

# **RELATED PRODUCTS**

Item **S01** requires a VersaSense Wireless Device such as **Pxx** or **Lxx**. This item is compatible with all items in the VersaSense catalog:
